

BriSCA F2/SSCA ZETEC KIT ECU Registration Form

If you have not purchased a control ECU direct from either BriSCA F2/SSCA then you are required to register this item.

For example you may have purchased a kit or a car from another driver which includes the ECU.

To reregister with BriSCA F2/SSCA there is a charge of £20.

You will need to re-register also if you are using the ECU in for example an F2 when it was purchased by a licenced Saloon Stock Car driver or the other way around.

**If you have SOLD an ECU with a car etc, it is the buyers responsibility to register the ECU.
Failure to register the correct ECU may lead to disciplinary action.**
